Skills

Languages:	Python, JavaScript, SQL
Frontend Technologies & Tools:	React, Redux, HTML5, CSS3, Tailwind, Sass, React Router
Backend Technologies & Tools:	Node.js, Express.js, MongoDB, API Development, Authentication, Testing

Education

Graphic Era Hill University	Sep 2022 - Present
BCA in Computer Applications	CGPA: 8.1/10

Project Work

EdTech Platform (2024) [View Project](#) [View GitHub](#)

- Created an online education platform supporting over 10,000 users, facilitating course management and user interaction.
- Established OTP authentication and role-based access (Admin, Instructor, Student) for over 10,000 users, boosting system security and user management efficiency by 40%.
- Incorporated and seamlessly integrated advanced course management and interactive dashboard functionalities, which significantly improved user experience and engagement by 30%.
- Utilized the MERN stack, reducing development time by 25% and improving application scalability.

Social Media Platform (2023) [View Project](#) [View GitHub](#)

- Developed a robust social media app supporting over 5,000 active users, featuring photo uploads, comments, real-time notifications, and an engaging chat system.
- Designed user profiles, photo uploads, comments, likes leading to a 40% increase in user interaction.
- Engineered a social media application with real-time chat capabilities using Socket.IO, enabling instant messaging between users and enhancing engagement through live communication features.

Portfolio Website (2023) [View Project](#) [View GitHub](#)

- Designed and launched a personal portfolio website, increasing project visibility and client inquiries by 50%.
- Created a fully responsive website using HTML, CSS, and JavaScript for various devices and screen sizes.

Work Experience

Physics Wallah [Intern](#)

- Engineered and integrated features for user registration, scheduling, and record management using the MERN stack (MongoDB, Express.js, React.js, Node.js), creating a streamlined and scalable solution.
- Optimized backend services using Node.js and MongoDB, significantly enhancing data storage and retrieval processes, resulting in a 30% improvement in overall application performance and efficiency.
- Enhanced the user interface and experience by leveraging React.js and Redux for responsive and flexible front-end development, boosting overall usability and user satisfaction.
- Conducted in-depth code quality assessments and implemented best practices, which enhanced system reliability and led to an increase in customer satisfaction ratings by 18% over the following quarter.

Awards and Certificates

Full Stack Web Development [View Certificate](#)

- Completed a course covering both frontend and backend technologies, enhancing full-stack development skills.

Project Management [View Certificate](#)

- Earned certification focusing on project planning, execution, and improving project management capabilities.
